# Why electric scooter sharing?

## Transportation ecosystem

- Micro-mobility solutions enhance multi-modality, strengthening alternatives to private cars

## Green mobility

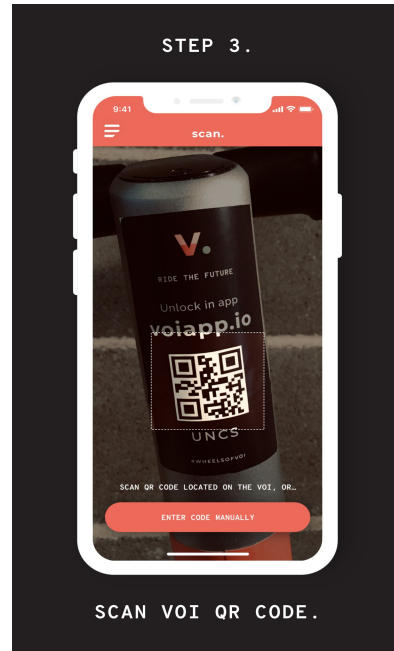

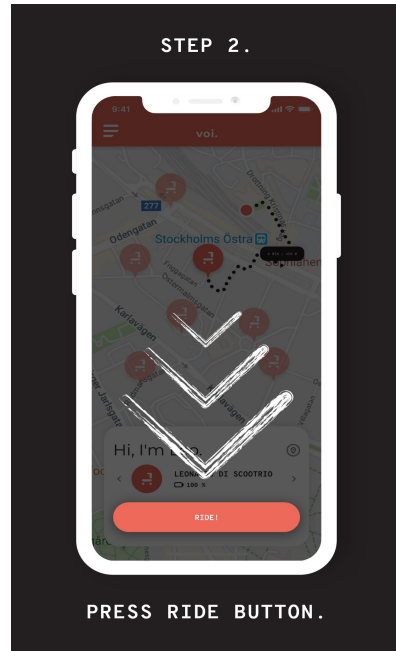

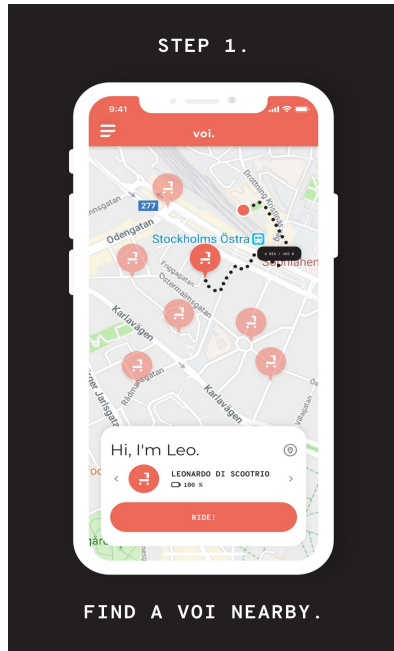

- Electric mobility reduces CO<sub>2</sub> emissions and reduces traffic and noise pollution

## Convenience

- First and last mile trips, A to B tailored solutions

# Ride the future in three simple steps

Intuitive interface and proprietary platform for an excellent user experience every time.

# The VOlage

- Swedish company founded in June 2018.
- Largest European e-scooter sharing company
- A-round in November 2018 from European investors.
- 840k rides and 83k kg of Co2 saved.
- 450k+ users.
- Present in Sweden, Finland, Denmark, France, Spain and Portugal in over 16 cities and counting

# VOI's partners

- **Current commercial partners:** P-bolaget Gothenburg, Q-park, 7-eleven, Stockholm Parking etc.
- **In Copenhagen alone** we have +350 local partners and more to come!
- **Adding value** to businesses is part of our partnership mantra. We know that our scooters increase traffic of people through storefronts etc.

# VOI x Green City Partners

When becoming a **Green City Partner** you put your space in the city to use for a green purpose. We serve **you**, your **employees** and your **customers** with VOIs and provide a **green** transport solution to the citizens at the same time.

By **partnering with us** you contribute to a greener city with fewer cars, less pollution and less impact on the climate. And you support your own business by **attracting** customers and visitors to your location.
